# 7432 Full Extension 7434 1" Over Travel

Models 7432 and 7434 are patented Accuride designs that feature exceptionally smooth movement, and a user-friendly drawer disconnect. Load rated at 100 lbs. per pair, the low profile design of these slides make them suitable for use in shallow as well as deep drawer applications.

## Features and Benefits

- **Progressive movement** provides smooth, quiet movement.
- **Low profile design (2.35")** allows installation in shallow, average or deep drawers.
- **Cam Drawer Adjust** provides a total range of 1/8" vertical drawer adjustment.
- **Hold-in detent** to prevents drawer roll-out and bounce-back.
- **100 lb. load rating** accommodates a wide variety of applications.

## Installation

- **32mm and traditional hole pattern** add application flexibility.
- **Rail mounting system** provides easy drawer disconnect and smooth, consistent movement.

## Availability

- **Two plating options** - electroplate clear zinc or black finish\*
- Even length increments 12" -28"

\* Minimum order quantities may apply.

**Authorized Distributor**
